

WILL USE MARKERS OF COMMON DESIGN

Historic Places to Be Indicated by Bronze or Marble Tablets.

ALL TO BE READY BY FOURTH OF JULY

Committee to Select Memorial Spots Meets and Organizes.

One of the features in connection with the Independence Day exercises on July 4 next, will be the unveiling of the tablets permanently marking Washington's most prominent historical spots. In marking these places the committee will consider the using of only bronze or marble tablets, of attractive design. It is considered likely that the design will be decided upon which will be used on all of the tablets. Members of the committee who have been making inquiry are of the opinion that these tablets can be purchased and erected for about \$200 each.

Appropriation Made.

More than a year ago Congress appropriated \$1,000 for the permanent marking of the historical spots in Washington and turned the money over to the Joint Committee on Library of the Senate and House of Representatives, Senator Wetmore chairman. This appropriation has never been expended. The committee of the commissioners appointing this citizens' committee is to have it work in conjunction with Senator Wetmore's joint committee.

When the \$1,000 has been expended Congress will be requested to make another appropriation for the purpose of completing the marking. In the event Congress fails to do this it is probable that a fund will be raised by private subscription.

The citizens' committee is to be known as the permanent committee on marking points of historic interest in the District of Columbia.

At a meeting held in the New Willard Hotel more complete organization was effected by the selections of officers and the naming of an executive board.

Members Attending.

Of the fifty-two members on the committee, these were present: Judge John B. Bates, Edward T. Bates, Dr. Marcus Benjamin, Arthur F. Bishop, William W. Bishop, William V. Cox, James Crockett, Madison Davis, Jr., Frederick L. Fishback, Harry O. Hall, Dr. D. Percy Hickling, Dr. Edwin A. Hill, Col. T. S. Hopkins, Joseph L. Keefe, Dr. E. Randolph Kelm, John McElroy, Henry F. F. Macfarland, C. C. Magruder, Jr., George C. Maynard, Dr. James D. Morgan, John C. Proctor, Andrew H. Regan, Benjamin W. Regan, Edward W. Robinson, J. Kennedy Stout, Hugh T. Taggart, Dr. William T. Thall, William B. Turpin, Albert L. Van Deusen, William P. Van Winkle, Michael I. Weller, Frank R. Wheeler, Francis J. Young, William P. Vag Winkle, the chairman, after calling the meeting to order, read the letter of appointment by the Commissioners, and announced these appointments:

Appointments Made.

Chairman, William P. Van Winkle; vice president, William V. Cox; secretary, Dr. Marcus Benjamin; corresponding secretary, J. Kennedy Stout. This executive committee was appointed: George F. Bowman, F. G. Bryan, Theodore W. Noyes, Dr. Marcus Benjamin, William W. Bishop, Madison Davis, Jr., F. L. Fishback, Henry B. F. Macfarland, G. C. Maynard, Dr. James D. Morgan, Frederick D. Owen, William B. Turpin, and Francis J. Young. Great interest was shown in the objects of the organization, while the general committee was in session. Later, when a conference was held by the executive committee and the following sub-committees were organized: Legislation—H. B. F. Macfarland, chairman; Theodore W. Noyes, and Col. T. S. Hopkins. Scope and plans—Judge John B. Bates, chairman; Walter C. Clephane, and F. C. Bryan.

LEAGUE WILL URGE HIGH ART IN SCHOOLS

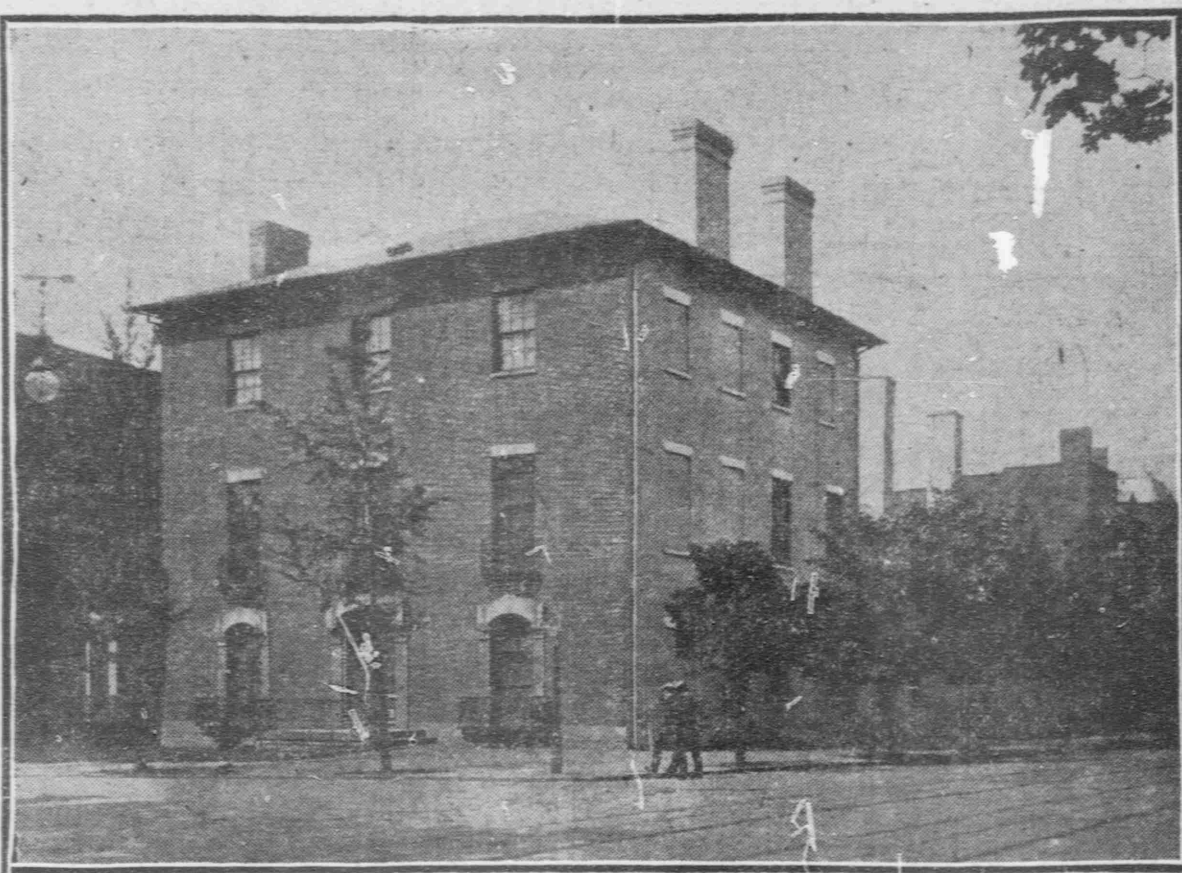

Project Will Be Discussed at Meeting of Organization.

Plans for hanging works of art and instructive pictures in the various public schools of Washington, and to otherwise promote the class rooms with a view of promoting the education of the children, will be discussed at a meeting to be held in the home of Mrs. Charles W. Richardson, 1315 Connecticut avenue, this afternoon at 4:30 o'clock. Mrs. Richardson, who is the prime mover in this project, will preside at the meeting, and will outline its purposes. It is the opinion of a number of Washington women who are interested in the movement that much could be done toward bettering the education of the school children by placing before them pictures which have been carefully selected. It is the intention to take the pictures chiefly from the works of the old masters and some from the works of the more modern artists. More than a year ago this plan was discussed, and an organization was formed known as the League for the Decorating of Schools. Mrs. Richardson was elected president. Miss Grace Lincoln Temple, who designed the Women's building at the Chicago World's Fair, is a member of the league, and is serving as the chairman of its decorative committee.

TO ENLARGE QUARTERS.

The Columbia Turnverein has grown so it is planning to enlarge its quarters. The German language school classes, which are attended by 100 boys and girls, and the gymnasium classes, have increased wonderfully during the past year. At a meeting yesterday plans for an extension of the present building were submitted and the finance committee was directed to work out a method for raising the necessary fund.

HISTORIC LANDMARKS OF WASHINGTON—No. 1.

DECATUR-VAN BUREN MANSION.

Following the appointment of a permanent citizens' committee for the purpose of marking points of historic interest in the District of Columbia with permanent tablets, The Times will, from time to time, print photographs of these landmarks with the events in history which have made them famous.

One of the Buildings Chosen by Citizens' Committee To Be Marked Permanently as a Historic Spot

At the southwest corner of Jackson place and H street northwest, facing Lafayette square, stands the solid, old double house known as the Decatur-Van Buren mansion, one of the first places selected by the citizen's committee among those to be marked permanently as the historic spots of the District of Columbia.

From a historical viewpoint, few houses or buildings in the District of Columbia are considered equal to this antique residence, which stands today just as it did when it was built by Commodore Stephen Decatur in 1813. Time has treated the old building gently and although it is no longer the scene of

brilliant gatherings and social intercourse between public men, it remains solid and intact.

This house was built by Commodore Decatur directly after his return to Washington from the war of 1812. It was the scene of many gay and interesting functions during his occupancy, and it was in the large room at the northeast corner of the house on the second floor in which Decatur died in 1820, on returning from his duel at Bladensburg.

Following the death of the naval hero the house was successively occupied by Henry Clay, Martin Van Buren, Vice President George M. Dallas, Edward Livingston, Jackson's Secretary of State; Senator Judah P. Benjamin, afterward Secretary of War, Attorney General,

and Secretary of State of the Confederacy, and by General Beale, whose guest General Grant frequently was for weeks at a time.

Martin Van Buren occupied the house while Vice President and it was during his occupancy that the old building experienced the liveliest and most brilliant epoch in its history. Van Buren had two windows cut in the south wall and it was in the order that he might see the signals displayed by Jackson from the White House. Van Buren in turn used the window to do some signaling to President Jackson.

The house is three stories in height, and is constructed of brick. It contains more than twenty rooms, and has a large side yard, which at one time contained a beautiful flower garden. The building is now the property of Edward Beale McLean.

JUSTICES ORGANIZE.

WOODBURY, N. J., April 11.—A branch of the New Jersey State Association of Justices of the Peace and Constables was formed in this city, with fifty-seven members. Mayor Samuel H. Ladd, who is also a justice, was elected president.

A Good Way to Use HYOMEI

Besides breathing through the inhaler a few times a day, many catarrh sufferers write that they find inhaling Hyomei from a bowl or steaming water each night before retiring a great aid in curing stubborn cases.

Try it; it's very simple; gives quick relief and makes you breathe easier.

Fill a bowl half full of boiling water; pour into the water a half teaspoonful of Hyomei, cover head and bowl with a towel and breathe through nose and mouth the medicated antiseptic and healing vapor that arises.

This method relieves that stuffiness at once and makes your head feel clear.

You can get a bottle of Hyomei at druggists everywhere or at Henry Evans for only 50 cents. Ask for extra bottle Hyomei Inhalant.

But bear in mind if you want a Hyomei inhaler you must buy a complete outfit which only costs \$1.00.

But as stated before, if you already own an inhaler a bottle of Hyomei costs but 50 cents.

Hyomei is guaranteed by druggists everywhere and by Henry Evans to cure catarrh, sore throat, coughs, colds, rose fever, asthma, and croup or money back. Try it on the generous basis.

LOVING CUP FOR CHINESE.

AMOY, April 11.—Preparations are being made for the presentation of a loving cup from the second squadron of the American Atlantic fleet to the Chinese navy in commemoration of the visit of the battleships in 1908.

"The Man With the Hoe"

Needs his roast, steak or chop no more than he who works with his head

The Palais Royal

Bargains for Tomorrow Only

Go to Basement Floor—and decide upon the Refrigerator tomorrow. First learn of the points you should look for—if future comfort and economy are to be assured.

1. See that the outside case is made of genuine oak. 2. Be assured that the mineral wool is held in place by sheathing, so that it cannot slip down, leaving the ice compartment unprotected. 3. See that shelves are adjustable, waste pipes removable, lids fitted with patent holders.

Experts Here to Show You

It will be demonstrated that the air after passing over the ice falls directly into the provision compartments, displacing the warmer and lighter air, forcing it up the flues at either end into the ice compartment, where, by contact with the ice, it is purified, cooled, and again falls, thus keeping up a constant circulation.

Come tomorrow—learn all about a refrigerator. Look below for price list and learn that from one to two dollars less than the Palais Royal's less than usual prices can be saved tomorrow.

"Lapland" With Removable Ice Chamber, Sliding Shelves, Spring Doors, Etc.
